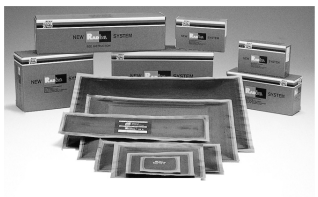
REMA RAD100 SERIES RADIAL REPAIR UNITS



Rema Tip Top's famous RAD100 Series Radial Repair Units, another member of Rema's Blue Bonding System™, revolutionized radial tire repair. With far better adhesion power than most other repair systems and an extensive range of sizes, Rema RAD100 Series Radial Repair Units can be cold or hot vulcanized, making them an ideal choice for tire dealers, retreaders or fleets. RAD100 Series repair units are specially constructed to absorb and disperse high flex forces. When used with Special Cement BL, the center-over-injury repair units become a dynamic part of any radial tire.

REMA PN BIAS PLY TIRE REPAIR UNITS

Designed specifically for everything from nail hole to section repairs of bias ply tires, Rema's PN Bias Ply Tire Repair Units, another member of Rema's exclusive Blue Bonding System™, can be used with either a cold or hot vulcanizing process and will deliver reliable and durable adhesion, regardless how they're applied. Because they have a high temperature resistance, PN Repair Units are ideal for retreading systems. With high tensile nylon cords for maximum patch strength and exceptional flexibility, easy-to-install unidirectional PN Repair Units allow users to perform even the largest section repairs with complete confidence. PN Repair Units are available in a variety of sizes (passenger through giant earthmover tires) and larger PN units (agricultural, logger, skidder, flotation and OTR applications) are pre-contoured to provide a better, more reliable fit in the tire.

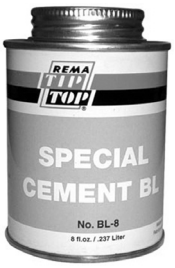
VULCANIZING FLUIDS, CEMENTS & LIQUID PRODUCTS

REMA PRE-BUFF CLEANER

Possibly the most important step in any tire repair is cleaning the innerliner around the injury. Rema Tip Top's Pre-Buff Cleaner dissolves mold-release lubricant and loosens other contaminants so that they can be removed using Rema's Rubber Scraper, creating a clean, solid surface for any repair unit. And Rema's Pre-Buff Cleaner is the perfect solution for crayon marks, grease and oil smears, and rubber skid marks on equipment. Available in easy-to-use aerosol cans or bulk containers.

STOCK NO.	DESCRIPTION
70	Pre-Buff Cleaner, 16 oz. Spray Can
71	Pre-Buff Cleaner, 32 oz. Spout Top
69	Pre-Buff Cleaner, 1 Gallon Can
28	Rubber Scraper

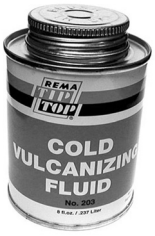
REMA SPECIAL CEMENT BL



The lynch pin of Rema's exclusive Blue Bonding System,™ Special Cement BL creates a nearly indestructible bond between tire and repair unit. Specially formulated for use in all types of tire repair, special accelerator solution that can be used equally well in both cold and hot vulcanizing.

STOCK NO.	DESCRIPTION
BL-8	Special Cement BL, 8 oz. Brush Top Can

REMA COLD VULCANIZING FLUID



Rema Tip Top's Cold Vulcanizing Fluid, designed for use with our line of tube patches as well as valve patches and rubber-based valves, is available in a wide-range of sizes, from 25gm tubes up to one gallon containers.

STOCK NO.	DESCRIPTION
203	Cold Vulcanizing Fluid, 8 oz. Brush Top Can
