NATIONAL FLEET PRODUCTS • POLY TRUCK & TRAILER FENDERS

Polyethylene material simply lasts longer than any other product. It's extremely durable, impervious to salt and holds up in 100° F below zero to 197° F above zero. They cover wheels completely and are particularly useful on multi-axle applications -- when dented or crushed they bounce back to shape. Every fender has a unique lip that provides for superior control of water spray.

- **Never needs paint---**Color is molded throughout so chips, scuffs and scratches can't be seen.
- **Never fades---**UV inhibitors are built into the material.
- **Never rusts---**Material is 100% polyethylene.
- **Never stress cracks---**This unique material is not affected by road vibration.
- **Never needs polishing---**Simply clean with soap and water.
